

YOUR VOICE MATTERS IN MENTAL HEALTH RESEARCH!

RESEARCH STUDY PARTICIPATION OPPORTUNITY

Study Purpose

Our study is investigating clinician experiences with high-risk patients. Your insights will help improve training and support for clinicians working in these contexts.

To be eligible, you must...

- Be a currently practicing clinician, educator, researcher, or a graduate student in related field
- Have or had experience working with high risk patients
- Be comfortable with surveys in English

Details

30-40 minute single online session

Responses will be entirely anonymous, with no identifying information

Opportunity to take a free training after completing the study
